Summary

Highly versatile Frontend Developer and Data Systems Specialist with a unique background in military strategic data analysis and industrial management. Expert in building high-performance React/Next.js dashboards and managing large-scale enterprise databases (PostgreSQL, MongoDB). Proven ability to handle sensitive information systems, manage massive military inventory databases, and integrate technical data with UAV system interfaces. Skilled in API testing with Postman and optimizing workflows for industrial manufacturing and real estate sectors (Lamar).

Technical Skills

- **Frontend & Visualization:** React.js, Next.js, TypeScript, Tailwind CSS, Shadcn UI, Advanced Data Visualization (Charts/Graphs/Dashboards).
- **Data Systems:** PostgreSQL, MongoDB, Big Data Management, Database Monitoring, Supabase, Inventory Control Systems.
- **Professional Tools:** Postman (API Testing), Git/GitHub, Networking Basics, UAV System Monitoring & Technical Interfaces.
- **Domain Expertise:** Military Strategic Data, Real Estate Dashboard Management, Industrial Manufacturing Data.

Professional Experience

Strategic Data Analyst & Dashboard Manager (Confidential Military Project) Jan 2026 – Present
Military Training Center / Armed Forces Egypt

- Developed a secure internal dashboard for high-level data analysis, featuring interactive visualizations for strategic reporting.
- Managed massive industrial datasets for military workshops, overseeing manufacturing, assembly, and quality control data.
- Engineered and maintained comprehensive warehouse and inventory databases for large-scale logistics with 100% accuracy.
- Integrated technical system interfaces for UAV (Unmanned Aerial Vehicle) units, managing real-time flight and operational data.

Dashboard Manager Oct 2025 – Dec 2025
Lamar Real Estate Qatar / Remote

- Managed the core administrative dashboard for international real estate listings and high-volume client CRM data.
- Utilized Postman for API verification and data synchronization between frontend interfaces and PostgreSQL databases.
- Monitored database health and network infrastructure to ensure 99.9% system uptime for global operations.

Frontend Developer Jan 2025 – June 2025
Egypt Higher Institute for Computers and Information Mansoura, Egypt

- Developed responsive web applications using Next.js and Tailwind CSS, focusing on performance and modern UI/UX.
- Implemented secure authentication and real-time database solutions using Supabase.

Junior Frontend Developer (React) Mar 2024 – Nov 2024
Limatrix Inc Mansoura, Egypt

- Built interactive UI components using React.js and integrated RESTful APIs for scalable web solutions.
- Collaborated in an Agile environment to deliver high-quality code and participate in technical documentation.

Education

BBA: Management Information Systems

Egypt Higher Institute For Computers And Information

Expected July 2025

Mansoura, Egypt

GED: Information Technology and Computers

Training Center

April 2022

Al Mahallah, Egypt
